PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: ~~001300240002-009~~

SESSION NUMBER: 001

DATE OF SESSION: 17 Mar 89

DATE OF REPORT: 10 Apr 89

START: 1355

END: 1450

METHODOLOGY: CRV

VIEWER IDENTIFIER: 032

1. (S/NF/SK) MISSION: Successfully report Stage VI-type information on a selected site.

2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 100900/371421 (Massada)

3. (S/NF/SK) COMMENTS: Using modeling, Stage VI worksheets, and time movement exercises, viewer successfully reported relevant details of site. Viewer has some difficulty dealing with AOL. If viewer assumes signal line value to either declared or undeclared AOL, he is inclined to follow wrong data to incorrect conclusion. Monitor must be prepared to demand relinquishment of AOL concepts immediately upon the identification of their presence in the session.

SUMMARY OF INFORMATION

The site is an ancient structure composed mainly of stone. It is almost cave-like with there being many stones stacked one upon the other. The inhabitants of the structures are no more upon the face of this planet -- at least, in any way that we could recognize them as being what they were.

The surroundings of the site are austere, and beget feelings of loneliness, forsaken thoughts, times and events. The area gave me a feeling of "spooky" almost magical.

The structure is elevated, protected and multilevel. This structure has a feeling of space (absence of anything solid) all around it; yet it is solid -- rock like and immobile. There are curves and arches as well as corners and steep verticals. But the most prominent perception is that of the inert, heaviness of the site.

Anciently, there was an event of enormous proportion which virtually eliminated the people who inhabited this site. There were people dying, things falling, smoke, haze, panic and confusion all around. People were dying in great numbers. Their death was brought about by their failure to do something -- or just by their actions (it was undetermined).
